## About

---

I am a third-year Informatics Degree student. I have immersed myself in several college projects as a Product Designer, UI/UX Designer, and Programmer. Over the past year, I have also thrived as a Freelance Animator, delivering over 20 successful projects. Passionate about technology and valuing good team communication, I am excited about new opportunities to learn and contribute.

## Experiences

---

### **2D Rigging Artist Freelancer**, *Fiverr & VGen*

Work as 2D Animator with more than 20 successful projects. Collaborated closely with overseas clients and companies to understand their requirements and delivering high-quality rigging on time and within budget.

### **Streaming and Broadcast Manager**, *Twitch & Youtube*

Worked in an Agency, successfully operated and managed a live streaming channel, leveraging technical skills and expertise in OBS Studio and honed my ability in public speaking through this role.

## Projects

---

### **College Project : Agriculture Consultation and Networking Platform**, *as Product Designer*

- Led the product design process. Utilizing tools such as Enterprise Architect to develop UML Diagrams and Figma to create user flows and interactive prototypes, ensuring a user-friendly and intuitive interface.
- Actively participated in Agile Scrum such as sprint planning and sprint reviews. Collaborated with Analyst and Programmer, ensuring a smooth workflow and successful project completion.
- Nominated as one of the best projects.

### **College Project : Notes App**, *Fullstack*

- Developed a fully functional CRUD web application using Laravel framework.
- Utilized Blade.php and Tailwind CSS for intuitive and modern styling of the application.
- Utilized Laravel's Eloquent ORM, migrations, and seeders for efficient database management.

### **Daily Routine and Counseling Platform**, *UI Design (Individual Project)*

- Utilized Figma, to design a visually appealing and user-friendly interface.
- Incorporated a calm and soothing color scheme to create a supportive and comforting user experience.

## Education

---

### **Bachelor Degree in Informatics Major**, *University of Jember*

2021 – present

GPA : 3.66/4.00

### **Cloud Computing Cohort**, *Bangkit Academy Program 2023 Batch 2*

08/2023 – present

## Programming Language, Framework & Tools

---

### Google Cloud Platform

*App Engine, Compute Engine, Cloud Run*

### Front-End

*HTML, CSS, Tailwind CSS*

### Back-End

*Laravel, PHP, Python*

### Database

*MySQL, PostgreSQL*

### JavaScript Libraries

*NodeJS, Express*

### Git

## Software

---

### Google Workspace

*Docs, Slides, Sheets*

### Programming

*Visual Studio Code, Postman*

### Design & Media

*Figma, Adobe Photoshop,  
Adobe Premiere, Live2D  
Cubism*

### Project Management

*Notion, Trello*

### Documentation

*Enterprise Architect*

## Languages

---

**Indonesian** (*Native*) | **English** (*Proficient*)

## Organizations

---

### Informatics Olympiad 2022 & 2023, as Designer Committee Member

- Contributed in preparing pre-event publications, utilizing Figma to design visually appealing and engaging promotional materials.

### IT 4 School 2022, as Volunteer

- Volunteered to teach elementary students programming basics using Scratch, practicing how to explain things simply and make learning engaging.
