(⊙) About

I am a fourth-year Informatics Degree student. I have immersed myself in several college projects as a Product Designer, System Analyst, UI/UX Designer, and Programmer. Additionally, I have also thrived as a Freelance Animator, delivering over 40 successful projects. Passionate about technology and valuing good team communication, I am excited about new opportunities to learn and contribute.

(🗀) Projects

Bangkit Capstone Project : Money Manager App, *as DevOps and Back-End Engineer*
- Implemented a secure API using Node.js, Express, and NoSQL Firestore.
- Enhanced security with Firebase Authentication and deployed the API on Google App Engine, ensuring optimal performance and reliability.
- Collaborated with the Mobile Development team to ensure seamless API integration.

College Project : Agriculture Consultation and Networking Platform, *as Product Designer*
- Led the product design process. Utilizing tools such as Enterprise Architect to develop UML Diagrams and Figma to create user flows and interactive prototypes, ensuring a user-friendly and intuitive interface.
- Actively participated in Agile Scrum such as sprint planning and sprint reviews. Collaborated with Analyst and Programmer, ensuring a smooth workflow and successful project completion.
- Nominated as a top 8 project for its innovation out of 56 submitted projects

Capstone Project : Smart Canteen & Thesis Management System, *as Database Engineer*
- Led the database engineering process. Designed and implemented the database using Oracle Data Modeler and MySQL, including ERDs and environment setup.
- Worked closely with developers and system analysts to meet all project requirements.

(🎓) Education

Bachelor Degree in Informatics Major, *University of Jember* — 2021 – present
GPA : 3.78/4.00

Cloud Computing Cohort, *Bangkit Academy Program 2023 Batch 2* — 08/2023 – 01/2024
Graduated as Distinction Graduate in the top 10% of the cohort.

(📚) Experiences

2D Rigging Artist Freelancer, *Fiverr & VGen*
- Work as 2D Animator with more than 40 successful projects for international clients across 5+ countries.
- Collaborated with overseas clients and companies to understand their requirements and delivering high-quality rigging on time and within budget while consistently received a 5/5 rating.

(🖥) Technical Skills & Tools
